Stik nu strimlen igennem diametralt uden at vende strimlen omkring med modsatte side op! Samme gøres med strimlerne i de tre andre verdenshjørner, og herved opstår pyramidespidsen.

15

Tråd en stoppenål med merceriseret bomuldsgarn og stik denne gennem stjernen fra pyramidespids til pyramidespids. Pynt med akrylprismer mellem hver stjerne.

TIP!

Ønskes en formbar eller stående guirlande kan garnet erstattes med tynd metaltråd.
